

# Hair & Feather Extensions

now  
available at:

salon | utopia

*Babe* 100% human hair is being used by salons and stylists all over the world for its ability to maintain a radiant and smooth texture without using synthetic coatings like silicone. No heat, glue or chemical, means no mess or damage to your hair.

Babe hair is available in **25 colors** and can be curled, flat-ironed, washed, conditioned, permed and even colored.

Because the cuticle is not stripped and is left in-tact, Babe's high quality REMY (cuticle correct) hair accomplishes the goal of helping men and women around the world gain the look they desire. From adding highlights to volume to length, all looks and styles for all walks of life can be accomplished by using Babe hair.

## How long do Babe Hair Extensions Last?

I-tip and feather hair extensions last anywhere from 2-4 months depending on natural hair growth.

This method allows hair to be reused 4-6 times IF cared for properly.

## How much does it cost for Babe Hair Extensions?

In order for us to give you an accurate estimate, please schedule a FREE CONSULTATION.

**(FEATHERS ARE A FLAT FEE - SEE RIGHT PANEL)**

At your consultation, the stylist working with you will give you a price for hair as well as an estimated cost for application written out for you to refer to.

### Included in the cost of the service is:

- Hair Extension Brush
- Color Save Spray Conditioner

It is up to you to take care of the extensions. We will provide you with a home care sheet that you must adhere to. You MUST use a high quality, sulfate-free, color-safe shampoo and conditioner.

## How do I book an appointment?

In order for us to book your appointment, you must have an initial consultation. Also, we will need you to pay for the cost of the hair the day you reserve a time for your application.

Application costs are due on the day of your appointment.

## Can you style extensions?

Yes! You can blow dry, curl and flat-iron them.

## How long does it take to apply extensions?

The time it takes to apply the extensions depends on the texture and thickness of your hair as well as what you want to achieve.

## What type and quality of hair does Babe offer?

Babe offers only the finest and highest quality of 100% human remy (cuticle correct and in-tact) hair extensions.

Remy means that all of the cuticles run the same direction. This ensures that there is no tangling or matting. The client should follow any and all maintenance suggestions made by their stylist.

No silicones or other chemicals are added to the hair. This means that the client can enjoy pure, untreated hair that will last anywhere from 6 weeks to 6 months (depending on application type).

## Will the extensions fade?

Due to the color adding process, hair extensions will usually have little or no fading.

## Can you color extensions?

Because Babe Hair Extensions are 100% human remy, the stylist can deposit color into the hair without damaging the extensions. However, you can only *deposit* color.

## How many colors are there?

There are 25 colors of extensions and 12 colors of feather extensions.
